OPTIMIZE YOUR SPACE

Rousseau Metal Inc. is a constantly evolving company, and for over 70 years we have been creating storage systems to help you efficiently organize and store more in less space.

Rousseau products are flexible and scalable, so you can manage your inventory and various tools as efficiently as possible.

For parts stores, a solution combining shelving, mini-racking and Drawers for Shelving can maximize available space. This hybrid system can recover up to 70% of floor space by allowing parts of different sizes to be stored within the same unit. Frequently used items can also be kept within arm's reach at all times. By using Rousseau drawers, you can reduce the size of your parts department, leaving you with extra space to dedicate to more profitable areas like the service department or showroom.

Maintenance departments will love the quality and versatility of our toolboxes, workbenches and workstations. Our products and accessories also meet the standards of the "5S" method. Every tool can be stored and organized thanks to the vast array of compartments and accessories available.

LIFETIME WARRANTY
The Rousseau drawer rolling mechanism is covered by a lifetime warranty.

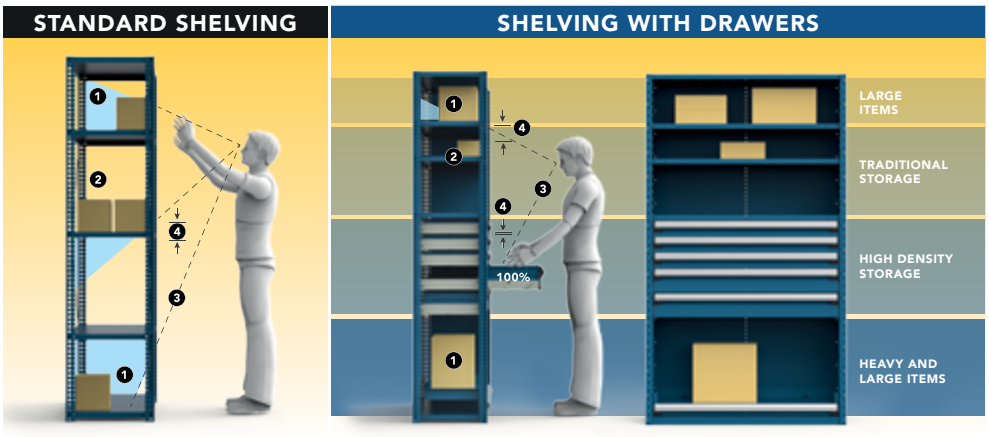

THIS BROCHURE FEATURES THE MOST POPULAR MODELS; CONTACT US TO FULLY EXPLORE A WORLD OF POSSIBILITIES

CURRENT SITUATION

1 Top and bottom shelves are not properly filled, nor accessible.
2 Back of shelves are poorly lit and visibile.
3 Visibility of various items is hampered by the shelves.
4 Vast amount of unused space between shelves.

RESULT

Arduous management and location of your inventory.

OUR RECOMMANDATIONS

1 Widely spaced shelves for the storage of larger items.
2 Close-set shelves positioned at eye-level.
3 Easily locate objects in a drawer that open's at 100%.
4 Optimized use of space based on the sizes of it's stored items.

RESULT

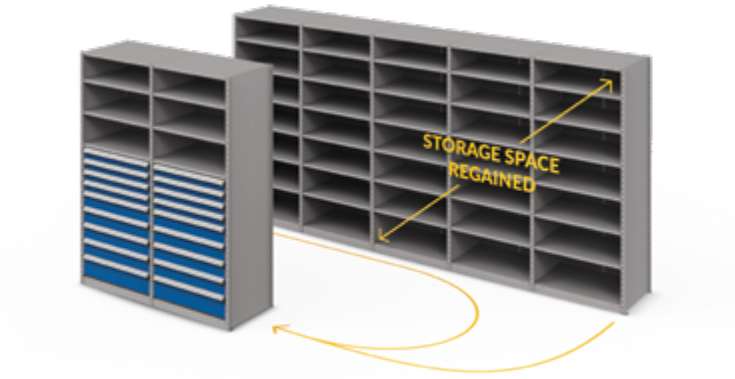

Easier management of your inventory based on an organized storage method.

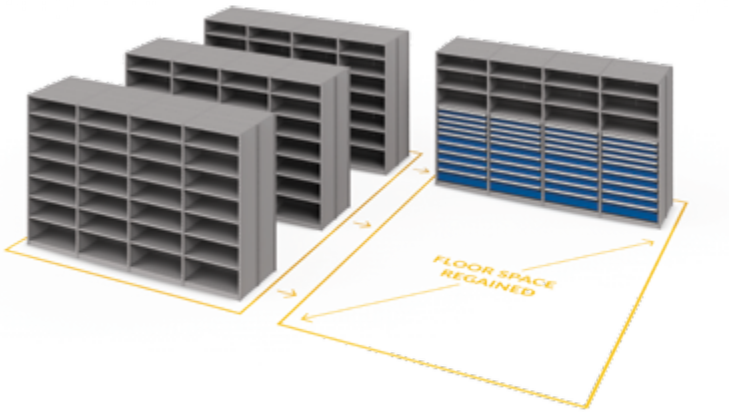

SMALL AND MEDIUM-SIZED PARTS

To save space and efficiently organize your parts, drawers for shelving are the perfect solution.

We are storage specialists, and we recommend drawers for shelving to easily manage your small and frequently used parts. Rousseau drawers can be installed in over 35 shelving brands available on the market. You can therefore keep your existing installations and still make significant space saving gains.

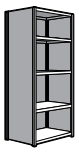

Are you planning a new installation? Our Spider® shelving system is the most comprehensive and most versatile solution on the market. Thanks to its unique design, it is incredibly easy to assemble and use.

MEDIUM-SIZED TO LARGE PARTS

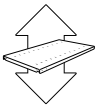

Our Spider® shelving system is perfect for day-to-day parts, special orders and parts you need to keep in stock for warranties.

Thanks to its unique design, it is extremely easy to configure and add accessories.

The Spider® shelving system is the only solution that allows you to use shelves (medium-sized parts), steel decks (large parts) and drawers (small parts) all in the same system.

SHELVING ACCESSORIES

There is a wide range of accessories available for the Spider® shelving system, including perforated panels, hooks, holders and "5S" identification.

Perforated panels have several benefits. They allow you to make use of space often underutilized. These accessories are ideal for belts or any other part that can hang. With a grid of holes spaced 1"c/c apart, your optimal configuration is easy to create.

You can store many different parts, tools and accessories using our family of hooks and holders. They are compatible with all panels currently available on the market (¼"dia. holes) as well as Rousseau perforated panels. By adding our "5S" identification decals, the contrasting colors help you to easily spot where to hang items and when they are missing.

SPECIALIZED STORAGE

The storage racks we offer are more than just simple products. They are part of a complete system that includes a range of accessories responding to the unique needs of companies that sell and repair motorized equipment: battery racks, tire racks, hanging racks for various parts, and much more.

These racks are the perfect way to make your store both efficient and tidy. This helps you to retrieve items quickly and reduces the risk of loss and damage.

BATTERY RACK

36"	36"	39"	2	SRP0464_
		51"	3	SRP0465_

... A

- Easily locate the disparate parts you're looking for!
- Three steel decking levels for storing large parts
- Extra hooks (SR63-02)

Over the years, Rousseau has developed many different storage solutions to meet the standards of the 5S methodology. The aim of this Japanese technique is to continuously improve the work environment. It is designed to achieve better organization and an efficient work environment by ensuring each tool is in the right place, easy to find and well identified.

Furthermore, the storage solutions we offer help you to improve work conditions and morale for employees by reducing the time and energy they spend on unproductive tasks.

WALL-MOUNTED PANEL SYSTEM

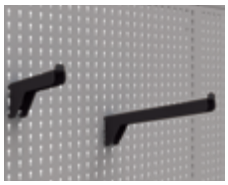

Rousseau's 5S multi-purpose panel system can be used to store a broad range of items of different sizes, shapes and weights on a single surface.

SERVICE COUNTERS

Whether you want to add drawers under your service counter, add a work surface to your shelving system, or simply add cabinets with shelves and drawers next to your service counter, Rousseau products can be tailored to fit your needs.

With a combination of dividers and partitions in your drawers, you can have a multitude of small parts tucked away but within arm's reach; while larger items that are frequently used, including office supplies used daily by your service department, can be stored on shelves.

Your department will run more efficiently, you will be able to serve more customers, and you will therefore maximize your company's sales and profits.

This workbench has been specially designed to allow liquids to drain cleanly and effectively when repairing transmissions.

- The top includes a rim (back and sides) to prevent spills while the oil is draining
- The steel surface includes a 2"dia. threaded drain for connecting a drainage pipe
